

Amendments to the Claims:

1. (Original) A solid cosmetic composition characterized by comprising, as a structure agent, a combination consisting of a saturated straight-chain polymer and an agglutinating agent for such polymer that consists of a glyceride.
2. (Original) A composition according to claim 1, characterized in that the saturated straight-chain polymer is saturated linear polyethylene.
3. (Original) A composition according to claims 2, characterized in that the saturated linear polyethylene has a molecular weight of approximately 400.
4. (Currently Amended) A composition according to ~~any one of claims 1-3~~ claim 1, characterized in that the agglutinant agent is tribehenin.
5. (Currently Amended) A composition according to ~~any one of claims 1-4~~ claim 1, characterized in that the saturated straight-chain polymer is present in a proportion ranging from 2 to 20% by weight, based on the total weight of the composition.
6. (Currently Amended) A composition according to ~~any one of claims 1-5~~ claim 1, characterized in that the agglutinant agent is present in a range from 3 to 15% by weight, based on the total weight of the composition.
7. (Currently Amended) A composition according to ~~any one of claims 1-6~~ claim 1, characterized in that it is in the form of a lipstick.
